

# Hamza Rashed

As a problem solver who loves facing challenges in my work, I'm excited to be at the deployment phase of my career as a web developer. I'm passionate and ambitious about my work, and love to be on a team that questions possibilities. I've previously been a Full stack developer, and bring those skills to my company .

Independently, I've accomplished website building projects as a freelancer for over two years. Also as a trainer for many years .
